Computational procedure used to estimate MOH division population

- (1) Population for each MOH area was estimated using the population summaries prepared for GN divisions in the census of Population and Housing 2012.
- (2) These counts were allocated to each MOH according to GN division lists provided by MOH offices.
- (3) Population estimates and the annual growth rates of Registrar General's Department for the year 2014 were used to derive 2015 mid year estimates.

Note

- (1) Where necessary each figure has been rounded off. For this reason there may be apparent discrepancies between the sum of the constituent items and the total, in some tables.
- (2) Population of RDHS Division is based on usual residence. Changes due to resettlements in the Northern and Eastern Provinces after 20.03.2012 are not considered while estimating the population
